## PRESIDENT'S MESSAGE

(President's Message Continued)

As we begin a new year, I want to share with you my view on the condition of MISGA. I believe MISGA is in great shape! Last year we generated \$1,118,395 in total revenue from our mixers, qualifiers and tournaments -- a record. The

total number of mixers is at an all time high as is the total number of participants. It looks like the Club Reps are doing things right.

Look for membership levels to start increasing. I say this because the Baby Boomers, those born between 1946 and 1964, are beginning to turn 55. I also anticipate an

increase in the number of member clubs, particularly on the Eastern Shore.

Participation in the Fall Frolics is starting to turn the corner. I suspect membership levels over the past decade were not sufficient to support three events a year. Action by the Board of Directors to limit Fall Frolics to two events a year makes sense. If and when demand returns, we can add events accordingly. The Fall Frolics are a good value and a great way to meet people from other clubs.

However, MISGA is not without its problems. Three areas come to mind which require our attention.

Certain clubs in and around the Washington, DC and Baltimore beltways must deal with traffic congestion which makes travel difficult. A 45-minute commute of five years ago, now takes twice as long and it won't get any better. Other clubs have excessive distances to cover in getting to mixers. Either way, it's taking too long to get there. As a result we have to re-examine how we do our scheduling and make appropriate changes.

There are troubling reports that more and more  
(con't. in next column)

MISGA associates are refusing to attend mixers and other events at courses which they deem to be undesirable. This attitude runs counter to the spirit of MISGA. It has no place in the organization! Remember this: some clubs have better course layouts than others and some have better facilities, but on the whole., each one represents an enjoyable day of golf.

MISGA continues to receive criticism for casually applying the rules and etiquette of golf and failing to comply with the USGA Handicap System. These areas will receive the continued attention of the Ad Hoc Committee on Rules and Handicaps with particular emphasis on getting associates into the habit of posting scores. Out of fairness to all, we want to make sure that our handicaps reflect our playing ability.

I look forward to serving as your president, and I pledge to promote the goals and objectives of MISGA. I'll see you on the golf course.

*Sam Hall*

# MISGA WELCOMES TWO NEW CLUBS

## JONATHAN'S LANDING

Jonathan's Landing Golf Course, in Magnolia, Delaware, opened for play in 1996 as a links course with two-foot-high grass covering most of the rough area. Thankfully, this heather-type grass was eliminated shortly thereafter. By the spring of 2001 Jonathan's had developed two courses: the championship Point Course with 18 holes at 6,657 yards and the Cape Course with 9 holes at 2,637 yards.

The Fourth Hole

The front nine of the Point Course is noted for its severe, rolling greens while the back nine offers many water hazards and lengthy fairways. The black tees are a challenge for the best golfers.

The nine-hole Cape Course has six par fours of typical length and three par threes, all with ample and challenging greens.

The club offers a large practice green, indoor and outdoor driving range, pro shop and snack bar. The new club house is designed to replicate the features of Delaware's historic Port Mahon

Lighthouse. It has spacious dining facilities to accommodate large gatherings.

This past season Jonathan's became increasingly popular with area golfers due to its friendly management and staff and because of the well-kept golf course.

We at Jonathan's welcome MISGA golfers and hope you enjoy our club. We look forward to a great 2002 season!

## THE EASTON CLUB

The Easton Club, located in Easton, Maryland opened in October, 1995. The golf course, covering 182 acres, is an 18-hole championship course designed by Bob Rauch Hole- In - One Design Group. The well-maintained bent grass tees, fairways and greens are a

golfer's dream. Varied and challenging holes where water, wetlands and scenic fairways come into play make this a shot maker's course.

The number three signature hole is a tricky par three surrounded on three sides by water. A large driving range, practice areas and putting green are adjacent to the clubhouse.

After a great day of golf, players can relax and enjoy

an outstanding meal served at Eagle's Point Pavilion, an open-air pavilion overlooking the scenic Tred Avon River. The pavilion seats 200, has a custom-built,

brick, barbeque grill, sound system and full-service bar. The Easton facilities also include a fully stocked pro shop, Eagles Spirit Gourmet Restaurant and the Flagstix Bar and Grill.

The course ratings and yardage are as follows:

Blue Tees	72.3/129	6,703 yards
White Tees	70.5/125	6,238 yards
Gold Tees	67.9/120	5,721 yards

## Division IV Christmas Party

One hundred and twenty-nine Club Reps, Assistant Reps, Board Members and wives attended the Division IV Christmas party held at Manor Country Club on December 11. The luncheon was hosted and emceed by **Nick Parker**, Manor Club Rep and MISGAGRAM

mailing chairman. **Ken Wallgren** presented **Walter Bank**, of Bethesda Country Club, with the Division IV Rep of the Year award! Walter was wearing his traditional, red, holiday Hush Puppies which made a big splash!

### **CJ Myers**

was the recipient of a special gift from some of his golfing buddies. He received a pair of suspenders which friends thought would help his golf swing since it is rather tricky to swing and catch drooping slacks at the same time! That's what happens when you return to your svelte, fighting weight!

The steak and salmon feast was enjoyed by all, and at the conclusion of the luncheon, wives were given the poinsettia centerpieces.

## "MacTavish, The Secret Agent"

A secret agent was sent to Scotland to pick up some very sensitive information from an agent called MacTavish. His instructions were to walk around town using a code phrase until he met his fellow agent. He found himself on a desolate country road and finally ran into a farmer.

"Hello," said the agent, "I'm looking for a man called MacTavish."

"Well, you're in luck," said the farmer. "As it happens, there's a village right over yon hill, where there's a butcher named MacTavish, the baker is a MacTavish and three widows are called MacTavish, too. In fact, my name is MacTavish."

"Aha," thought the agent, "here's my man." So he whispered the secret code, "*The sun is shining... the grass is growing. .. the cows are ready for milking.*"

"Oh," said the farmer, "you're looking for MacTavish the Spy. He lives three miles the *other* direction."
